FOOD CONSUMER SCIENCE IN THE BALKANS

Progress in the project: Mid-term review

Overall good

- correct with delays
- Ok with quality

2

FOCUS
FOOD CONSUMER SCIENCE IN THE BALKANS

Financial aspects

- First period is almost accepted
- Reporting for second year: AGRIDEA will send instructions by the end of the month
- Please, prepare already all the data (time, work and expenditures reports) to be ready as soon as possible
- Keep the same ways as required by the Commission for the financial report
- We all hope and need a faster approval for the the second period as for the first year
- If problems occur after the end of november, beneficiaries will be excluded of the paiement of the second period (will be postponed to the third period) ³

Administrative aspects (Coordination)

Dominique Barjolle will leave AGRIDEA by the end of the year. She will take a new position in ETHZ (Swiss Federal Institute of Technology) as senior researcher and lecturer (Institute for Environmental Decisions, Prof. B. Lehmann)

The coordination will move from AGRIDEA to ETHZ from the 1.1.2011

There is no change for the beneficiaries nor for the scientific part of the project

Magali Estève will continue to participate to the meetings
Astrid Gerz will replace her as person in charge of the project's administration

Objectives of the morning

Develop common vision for the future of the network between the beneficiaries

Elaborate the program of the open seminar in order to make it useful to achieve a step towards the future of our network

Get clear ideas about the actions to be taken in order to make the open seminar as successful as possible
